LINGUA AEGYPTIA (recommended abbreviation: *LingAeg*) publishes articles and book reviews on all aspects of Egyptian and Coptic language and literature in the narrower sense:

(a) *grammar*, including graphemics, phonology, morphology, syntax, semantics, pragmatics, lexicography; (b) *Egyptian language history*, including norms, diachrony, dialectology, typology; (c) *comparative linguistics*, including Afroasiatic contacts, loanwords; (d) *theory and history of Egyptian literature and literary discourse*; (e) *history of Egyptological linguistics*. We also welcome contributions on other aspects of Egyptology and neighbouring disciplines, in so far as they relate to the journal's scope. Authors of articles or reviews will receive electronic off-prints.

Periodically, we would also like to put the journal at the colleagues' disposal for a forum in which an important or neglected topic of Egyptian linguistics is treated at some length: in this case, a scholar who is active in this particular area will be invited to write a conceptual paper, and others will be asked to comment on it. The main author will then receive five, the other contributors two copies of the special issue of *LingAeg*. Short articles on grammar and lexicon (max. four pages) will be published in the section "Miscellanies".

Authors should submit papers electronically to the managing editor (lingaeg@uni-goettingen.de). Please send contributions in both doc/docx and pdf format. Further information (incl. guidelines and a template) is available from www.uni-goettingen.de/lingaeg. The decision whether to publish a manuscript is taken by the editors in agreement with the advisory board. For reviews see page 349.
